

What were the origins of the SNUR? What led EPA to propose it?

The proposal lists a number of new uses for asbestos but says EPA has not found evidence that the mineral is currently being used for these products. Is EPA trying to get ahead of these uses before they start?

Ex. 5 Deliberative Process (DP)

Say the rule is confirmed. How would EPA go about assessing these new asbestos product?

Ex. 5 Deliberative Process (DP)

Any concerns that the new rule could increase people's exposure to asbestos?

Ex. 5 Deliberative Process (DP)

What happens after the public commentary period ends? How long before the rule might go into effect?
